

Public Input to the Hazard Mitigation Plan

DeKalb County has completed its Multi-Jurisdictional Hazard Mitigation Plan. The Hazard Mitigation Plan provides DeKalb County with an assessment of the risks in the event of a natural hazard occurrence and provides plans of action to lessen the impact of these hazards in our communities. As grant funding from the federal government comes available, communities will have the opportunity to implement hazard mitigation projects that otherwise would not be financially possible. We review this plan annually and renew it every five years. We encourage public input to ensure that the plan addresses citizens' needs within the County and its municipalities. We have provided the link which will direct you to the document for you to review. If you have comments or suggestions, please email them to the address at the end of the document.

DeKalb County would appreciate your feedback on the plan available at the following website:
